RINSE AID

HIGH TEMPERATURE RINSE ADDITIVE

DESCRIPTION:

This product is a rinse additive for all high temperature mechanical warewashing equipment. Special wetting agents act effectively in a hot atmosphere to reduce the surface tension of water allowing it to sheet off to aid in the prevention of spotting, streaking and hazing on all glassware, flatware, dishes, china, pots and pans and plastic utensils. Excellent surface wetting promotes complete rinsing, quicker drying time and increases wash spray efficiency.

DIRECTIONS:

Intended to be dispensed through automatic liquid injection systems for hands-off operation.

USE RATE:

Use as per machine manufacturers use directions.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY
